Smooth 90Hz refresh rate

8000mAh (typ) large battery

6nm Snapdragon® 680 Mobile Platform

Quad speakers with Dolby Atmos®

Stylish aluminum alloy unibody design

New-style 11-inch display delivers elevated viewing experience

Serving as a highly portable tablet, Redmi Pad SE is designed to deliver an exceptional viewing experience while offering uncompromised convenience. It features a 11" FHD+ display that amplifies the content viewing experience with a generous 16:10 display ratio.[1] It also features a 1500:1 contrast ratio delivering enriched details and textures across both the darkest and brightest part of an image. With 400 nits brightness, Redmi Pad SE brings a reliable viewing experience, even when reading or watching content in bright daylight.

Redmi Pad SE is capable of reproducing 16.7 million colors, covering a wide range of vivid colors in the visible color spectrum to the human eye to bring all kinds of content to life. With a refresh rate of up to 90Hz,[2] Redmi Pad SE provides a silky-smooth viewing experience, especially for intense POV shooting games. Users can also manually choose 60Hz or 90Hz to balance power efficiency whilst achieving the satisfying viewing experience.

A spectacular visual experience

Whether reading or viewing content for work or leisure, Redmi Pad SE's display has been designed with comfort in mind. With an upgraded Reading Mode 3.0, Redmi Pad SE offers dedicated Class and Paper modes to optimize your reading experience with true-to-life reading color options. The LCD display features DC dimming helping to eliminate visible or invisible flickering within the 0 to 3000Hz range, meeting the TÜV Rheinland Flicker Free standard. Moreover, with TÜV Rheinland certified Low Blue Light, Redmi Pad SE further helps protect users' eyes by reducing blue light output.

Superior sound quality for a remarkable audio performance

Redmi Pad SE is built with quad speakers supported Hi-Res Audio to provide the ultimate immersive sound and fully enhance the enjoyment of videos and movies. Supporting Dolby Atmos®, Redmi Pad SE offers an amazing home movie theater experience.

Power up your imagination for all-day use

Redmi Pad SE is powered by Snapdragon® 680 Mobile Platform with advanced 6nm process technology for more powerful processing and higher efficiency. It is sure to power through your day with its large 8000mAh battery, delivering up to 14 hours of video playback.[6] Offering up to 1TB of expandable storage,[3] Redmi Pad SE guarantees enough space for your favorite movies, shows or books downloads to make sure you will always have something to watch or read during the longest journey.

A stylish blend of practicality and aesthetics

Weighing just 478g,[4] Redmi Pad SE is designed to be carried around all day with ease while also being strong and durable with an aluminum alloy unibody. What's more, the tablet delivers a stylish aesthetic sharing a similar design with the popular Redmi Note 12 series. Accessorize your style with Redmi Pad SE in two trending colors: Graphite Gray, or Mint Green.[5]

[1] *Redmi Pad SE's screen size is about 11 inches when measured diagonally. Viewable area is smaller due to the curved corners. Measurements between individual products may vary.*
[2] *Refresh rate will be adjusted to 30/48/50/60/90Hz automatically on Redmi Pad SE, depending on the actual situation. Users can also set the refresh rate to 60/90Hz manually. Refresh rate can be adjusted to up to 90Hz only for supported apps and games, including Home Screen, Gallery, Clock, Mi Video Player, Settings, Mi Browser, Calculator, File Manager, Recorder, Themes, YouTube, Messenger, Telegram, YouTube Kids, WhatsApp, Brave, Ibispaintx, and WhatsApp Business.*
[3] *Configurations available may differ between different regions. Available storage and RAM are less than the total memory due to storage of the operating system and software pre-installed on the device.*
[4] *Actual measurements between individual products may vary. All specifications are subject to the actual product.*
[5] *Color availability may vary between markets.*
[6] *Data tested in Xiaomi Internal Labs, actual results may vary.*
